Shopping Malls
Noodoe turns parking lots into revenue-generating charging stations.
Noodoe EV OS automates 24/7 charging service delivery and payment processing.
The driver simply scans the QR code, touches Pay on the phone, and starts charging.
There’s nothing the station owners need to do, except watch the continuous revenue being generated.
No cards, no apps, no human
100% automated, 24/7 autonomous operation
Hotels
Noodoe turns hotels into recharging sanctuaries that help property owners attract high-value patrons.
Hotel staff have access to real-time status about all charging stations on the premises.
Noodoe at The Millennium Biltmore
Noodoe at Sheraton Universal
Fleets
Intelligent energy management keeps your deployment costs low and saves you big every day with smart charging strategies.
Interoperability
Works with All Certified Chargers
The days of the internal combustion engine as a commercial entity are coming to an end. Despite several false starts, the adoption of electric vehicles is accelerating faster by the day.

According to a recent McKinsey study, 350 new electric vehicle (EV) models will debut by 2025 and as many as 120 million EVs could be on the road by 2030.
Former California State Senate Minority Leader and Senate Republican Leader
